

## Go for gold

18 Sep 2009 09:57 AM | Posted by Editor

Okay so I happen to be in the group that think Pete Wentz is a bit of an idiot. His latest attempt to draw yet more 'unwanted' attention to himself (wearing a gold mask) was laughable, but then again, maybe someone's told him about the amazing healing powers of gold?

See the heavy metal has super regenerating properties and naturally promotes new cell growth and increased skin elasticity. So why not make like Pete and try these golden wonders for size...

Alpha-H Liquid Gold Revita Firming Solution – this dissolves dead skin cells, reduces pigmentation and spurs on the skin's metabolism to give it more vitality.

La Prairie Cellular Radiance Concentrate Pure Gold – this serum restores the look of radiance and health with its delicate micro-particles of real 24-carat gold.

Elizabeth Arden Ceramide Gold Eye Capsules – these help to strengthen, lift, contour, tighten and re-texturise the skin around the eye area.
